Life Science

Period: _____

Classification of Living Things

Directions:

1. Remove the eight organism cards from the envelope.
2. Using handout #1, “**Key to the Kingdoms of Life**”, sort your organism cards into their proper kingdoms. You should have six groups, representing each kingdom of living things.
3. When you believe that you have correctly sorted all eight cards, raise your hand and ask your teacher to check your groups.
4. Record the descriptions used in handout #1 to form a kingdom summary for all six kingdoms on the correct **Kingdom Data Table** (your worksheet packet).
5. Record the card number and organism name on the correct **Kingdom Data Table**.
